# INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Clinton Directory since 1960), present to subscribers and the general public, this, the 1965 edition of the Clinton City Directory, which also includes the Rural Route Residents. (In all, the Hill Directory Company and its affiliated companies publish more than 1,300 city, county, state and national Directories).

Confidence in the growth of Clinton's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Clinton to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Clinton Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Clinton, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major

807126 Chapel Hill N.C.

department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Clinton, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

#### **Community Publicity**

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Clinton and vicinity.

#### **The Clinton Out-of-Town City Directory Library**

Through the courtesy of the publishers of the Clinton City Directory, a Directory Library is maintained in the offices of the Clinton Chamber of Commerce, for free reference by the general public. This is one of the more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### Clinton, North Carolina

Clinton is a city of an estimated nine thousand five hundred population, located in Sampson County, in the eastern part of North Carolina. Clinton is the trading center for a wide agricultural area, having also, industrial plants, which give employment to hundreds of workers in the manufacturing of radio electronic parts, furniture, tobacco oil curers, home heating units, electrical appliances, lumber, fertilizer, children's clothing, pleasure boats, and ice cream. A meat packing plant established in 1950 now processes 250,000 hogs or more per year. Farmers in the area are paid close to eight million dollars yearly for hogs slaughtered by this firm. This firm employs two hundred people on a full-time basis. A modern poultry processing plant furnishes employment to many people.

Hamilton Beach products are manufactured in Clinton by Clinton Industries, a branch of Scovill Manufacturing Company. This company employs 1,200 people in the manufacturing of: vacuum cleaners, electric irons, hot plates, manicurist sets, electric knives, electric toothbrushes, salad makers, food mixers, can openers, ice crushers and knife sharpeners.

Clinton is proud of its auction produce market with office buildings, grading sheds, storage rooms, cotton platforms,

and poultry and egg market, covering a ten-acre plot. Its livestock and vegetable markets are among the largest in the state.

A tobacco market was established in 1945. The market sold 14,112,060 pounds at a price of \$8,038,833.25 in 1964. Clinton is the world's largest One Set Tobacco Market. It is the home of the South's largest market hog show and sale. We claim the largest livestock arena in Eastern Carolina . . . . . used for Pure Bred Stocker Feeder cattle sale.

One of the oldest cotton markets in the state is located in Clinton. Average for the year was \$59.87.

Our shopping facilities in Clinton are excellent. The stores and shops in the city are modern, attractive, offering brand named, quality merchandise. The city maintains 4 large free parking lots for people to "Park and Shop in Clinton", as well as one metered lot.

Two outstanding financial institutions serve the city and county: The First Citizens Bank & Trust Company and The First Union Bank. The First Citizens Bank has two branch offices within the city limits. The Clinton Savings & Loan Association has assets of approximately \$7,000,000.00.

The police department is under the direct control of the mayor and the Board of Commissioners.

The Sampson County Board of Health is composed of the Chairman of the County Board of Commissioners, the Mayor of Clinton, the Superintendent of Sampson County Schools, a medical doctor, a dentist, a druggist, a layman at large. The Secretary of the Board is the County Health Officer. The Health Department consists of two Sanitary Inspectors, two Clerical and Statistical Workers and five nurses. Their responsibilities include general superficial health check and immunization of all school children in Sampson County. The Board of Health is housed in a new Health Center on the grounds of Sampson County Memorial Hospital.

The Sampson County Memorial Hospital is a modern 144-bed hospital, constructed in 1950. Since that time a new wing for x-ray and radiology has been constructed. The hospital is fully-accredited and offers the services of all specialists. The hospital has served one of the greatest needs of the county and its operation has been phenomenally successful.

The Library has over 30,000 volumes. A central library, 1 branch and a bookmobile serve the city and rural areas adequately.

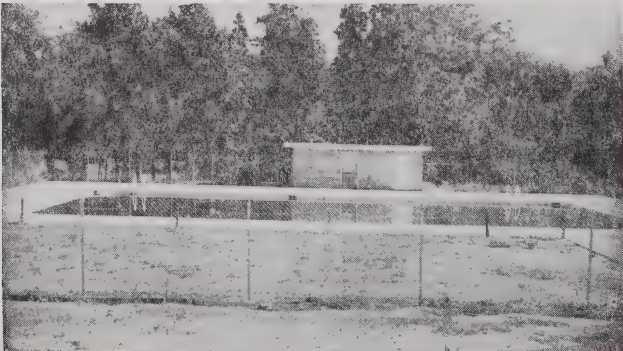

Clinton's educational facilities rank favorably with any in the state. We have six schools within the city, two high schools,

Among the denominations represented in our city, one will be welcomed by members of the congregations of Southern Baptist, Methodist, Presbyterian, Episcopal, Catholic, Universalist, Pentecostal Holiness, Church of God, Free Will Baptist, Free Will Holiness, Church of Latter Day Saints and Jehovah's Witnesses.

Clinton, although commonly known as an agricultural community, is now a growing industrial city. In 1958 the city won outstanding recognition and a bronze plaque for outstanding progress in industry. We have several new industries to add to our present manufacturing.

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a

tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

# SAMPSON COUNTY

---

Sampson County, named in honor of Colonel John Sampson, was formed in 1784. The first settlers, predominantly Scotch and Irish, began to arrive in the area now known as Sampson County about the middle of the eighteenth century.

The present population 47,500 consists mainly of descendants of the pioneers and of those who came later. The proportion of Negroes is quite large, and small colonies of Indians live on South River and in Herring Township.

Sampson County is in the southeastern part of North Carolina. The topography is gently rolling, although many flat areas occur. The elevation above sea level ranges from about 65 feet to 200 feet. The mean annual temperature is 61.7 degrees, and the annual growing season is 222 days, average yearly rainfall is 47.15 inches.

Clinton, the county seat, is the oldest city. It was incorporated in 1852. Other towns in the order of their incorporation are: Roseboro, Autryville, Salemburg, Garland, Turkey, Parkersburg, Newton Grove and Harrells.

Sampson County's most noted sons were William Rufus King, elected Vice-President of the United States in 1852, and Gabriel Holmes, governor of North Carolina from 1821 to 1824. A monument to Rufus King stands on the courthouse square. Historical markers on U. S. Highway 701, point to the birthplaces of Vice-President Rufus King and Governor Gabriel Holmes.

Sampson County is the largest county in the state and was created in 1784 by Act of Assembly dividing Duplin County. Divisions of New Hanover in 1795, 1847, 1870 and 1872, annexing various parts of the county to Sampson, account in part for its present size.

Sampson is served by two branches of the Atlantic Coast Line Railroad. Three major bus lines provide highway transportation to all portions of the county. The Carolina Power and Light Company provides electricity for its own distribution line. The Carolina Telephone & Telegraph Company has exchanges at Clinton, Roseboro, Garland and Newton Grove. The Star Telephone Membership Corporation has automatic dial exchanges in four rural communities.

The Clinton Airports are operated by R. A. Naylor, owner of the Clinton Flying Service. Planes are available for charter trips, or for instruction. The new airport has a 3,600 foot runway.

Sampson's farm income is \$47,649,944, ranking it fourth in the state. Although farming predominated for years, the past two decades have witnessed the development of Sampson County into an industrial area. The development of the Clinton Tobacco Market, together with the yearly growth of the produce market, has stamped it as the potential industrial center of Eastern North Carolina.

Clinton is the world's largest one set tobacco market. Thriving produce market. Largest Livestock Arena in Eastern North Carolina. Home of the South's largest Market Hog Show & Sale.

Concerted efforts have resulted in forty industries locating in Clinton, Salemburg, Roseboro, Newton Grove and Garland. The largest acquisition is Clinton Industries, Inc., a branch of Scovill Manufacturing Company of Waterbury, Connecticut. The industrial community is widely diversified as to products. Beaunit Mills Inc. is Clinton's newest major industry. It is now under construction. The multi-million dollar factory is to be the world's most modern.

A new county hospital was built in 1950 and since then there have been two additions. Clinton built a new city hall in 1960, and made other improvements. A year 'round recreation program was installed.

## Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore  $1000 \times 3\frac{1}{2} \times 305$  equals 1,067,500.

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Measures of Value...

The dollar is an accepted measure of value. So are the All-Electric Building Award and Gold Medallion symbols.

For business, industry, schools and churches, the All-Electric Award means that flameless electricity is the only source of energy for the building. It is used for heating and cooling as well as for lighting and power.

In homes and apartments, the Gold Medallion is a symbol of the luxurious comfort, convenience and practical economy of modern flameless electric living.

If you would like more value for your dollar, investigate All-Electric. A CP&L Representative will be glad to give you more information. Just call your nearest CP&L office.

# A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising**—aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which can not be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

*Advertising Federation of America.*

(Your Directory publishers fully subscribe to the principles set forth in this statement)

# Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

### Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

## Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

# CAUTION....

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Directory of Householders, Occupants of Office  
Buildings and Other Business Places, Including  
a Complete Street and Avenue Guide

1965

Copyright, 1965, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes nor responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance).

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible).

## Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight.

# Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

## Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a *Street and Avenue Guide*. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5

A *Statistical and Historical Story* of your city; plus miscellaneous other information.

Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities. Therefore your ad in the City Directory is seen by buyers from coast to coast.
